

POWER GENERATORS FOR EXTREME REQUIREMENTS

Fully enclosed military diesel power generators for permanent installation in vehicles and shelters.

Very flexible mounting system for extreme space constraints.

Version integrated

Technical data:

	Power kW	Power kVA	Voltage	Frequency Hz	Engine	Coolant E / G	Noise dB
Camino 2I	2	2	230	50	Kubota	water	56
Camino 5I	3.8	4.8	230	50	Kubota	water	56
Camino 8I	5.5	6.6	230	50	Kubota	water	56
Camino 10DSI	8	10	230/400	50	Kohler	water	56
Camino 12DSI	10	12.5	230/400	50	Kubota	water	56
Camino 15DSI	12.5	15	230/400	50	Kohler	water	56

Camino 25DSI	20	25	230/400	50	Mitsubishi	water	56
Camino 30DSI	30	35	230/400	50	Kohler	water	56
Camino 40DSI	38	45	230/400	50	Deutz	Oil/water	63

Stange Energietechnik GmbH

Technical Data Sheet

SET Camino Integrated

Article-No:

XXXXX-00000

Standard equipment

- Super sound capsule; all filters at one maintenance side
- Asynchronous generator, short circuit proof, water-cooled and suitable for unbalanced load
- Cooled exhaust system in the enclosure
- Exhaust silencer with high attenuation
- Cooling unit with circulation pumps and 230V fans with speed controller
- Basic control panel with key switch
- Electronical engine management with battery charger and automatic shutdown when: oil pressure too low, high temperature, water loss
- Computer-optimized arrangement of the anti-vibration shock mounts, 4g in all directions.

Safety devices

- Extremely quiet operation 56 dB(A) @7m
- Colour RAL 6031 green bronze
- Operating condition -32 °C / + 50 °C
- Storage temperature -40 °C / + 70 °C
- EMC to VG95373 class3
- Industry documentation

Additional items

- Fully electronic control panel with LCD Display and Auto Start System
- Starting temperature -40°C
- Roof Cooling unit
- Insulation monitoring
- Any RAL colour possible
- Specific cooler for roof top or extremely high or low temperatures
- EMC to Mil STD461G
